Tuning Tech by Frank Smith

Remote Tuning Build Sheet: **PORSCHE**

Please complete this form , SAVE IT, then upload it with your order so we can properly build your tune. Empty fields or incorrect information may result in a delay or our inability to create your tune. By completing this tune build sheet you understand and agree to Tuning Tech FS' Terms and Conditions. Please remember that tuning DOES NOT fix mechanical problems. Your vehicle must be in proper operating condition before installing your tune and installation instructions must be followed accordingly.

Make:	Model:	Year:	Mileage:
VIN #: Required**	(We cannot create a tune without an accurate VIN)	Minimum Octane Used:	

VEHICLE MODIFICATIONS
Fill in all that apply

Headers:	Cats:	Cams:
Intake:	Spark Plugs:	Date of last spark plug change:
Gears:	Previously Tuned:	
What other modifications have been done to your vehicle?		
Describe any mechanical issues your vehicle is having:		

TUNE MODIFICATIONS
Select your applicable options

Vehicle Rev Limiter Increase: Yes   No   Increase in all gears the same

Cold Start Delete: Yes   No
This feature is used to warm up the catalytic converters during cold start and will allow the car to be quieter (more neighbor friendly-especially in the early AM hours).

Rear O2 Off no Check Engine Light: Yes   No (Off Road Only)
This does not mean you will pass emission or Inspection. It will simply turn off the light on your dashboard. You will need catalytic converters to pass emissions. See your state requirement if you are cat-less.

ADDITIONAL REQUESTS FOR TUNE MODIFICATIONS

List additional modifications you would like included with the tune: (additional charges may apply)
